

ASCINA

Austrian Scientists & Scholars in North America

15+ Years of Networking

We are the network of Austrian scientists and scholars in the USA, Canada, Mexico. Our objective is to support Austrian scientists and scholars in North America and to facilitate interactions between Austrian scientists and scholars and international research institutions.

Local Chapters

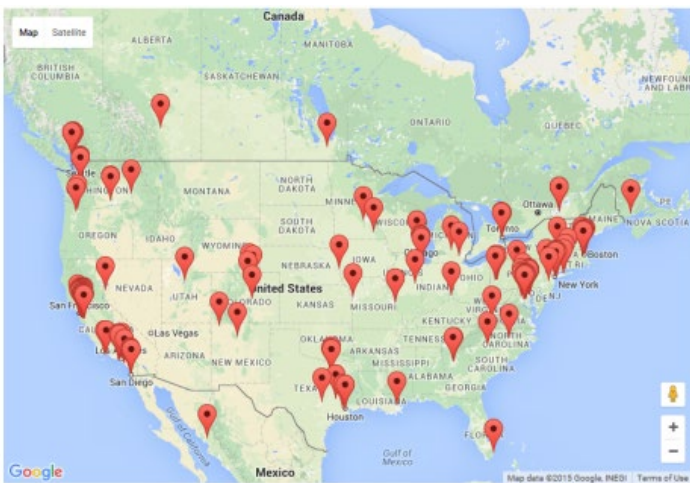

ASciNA Awards

Austrian Experts 10+ Years of Networking

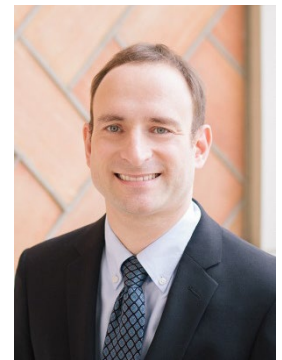

15+ Years of Networking

We are the independent network of Austrian scientists and scholars in the USA, Canada and Mexico. Our members come all from different educational backgrounds: from economy to physics, from life sciences to marine biology and arts. We are organized in chapters within North America and have a strong alumni organization back home in Austria and Germany. Our Austrian chapter maintains a strong cooperation with official institutions such as the Federal Ministries, the FWF, the FFG and the Austrian Academy of Sciences. We offer information, career development support, events, and representation of the interests of Austrian scholars and scientists.

Dear Friends of ASCINA,

In the 16 years since ASCINA was founded we have grown to over 1,500 members across most states, and alumni all over Europe. The ASCINA family is active locally, but has a national network of experts. If you are a scientist or scholar in North America, come join us.

*Franz Franchetti
Professor, Carnegie Mellon University
President and Pennsylvania Chapter Head, ASCINA*

The main focus of ASCiNA are its local Chapters, that cover North America and have become a "home away from home" for many of our members. Our main ASCiNA-wide activities are the ASCiNA Award, which is awarded yearly in the PI and Young Scientist category, and our Mentoring Program, that connects young ASCiNA members with accomplished ASCiNA members who are successful scientists or scholars in their respective field. ASCiNA's leadership consists of its chapter chairs and the ASCiNA officers. Our Past Presidents provide continuity and help define the long term ASCiNA strategy. Over the more than 15 years of ASCiNA's existence we were awarding four honorary memberships. We also would like to acknowledge the support of our partners. Please email us at media@ascina.at for media related inquiries and at contact@ascina.at for general questions.
